

## 2026 Chicago Fund for Safe and Peaceful Communities

### Funding Announcement

**February 2, 2026**

In 2026, the Chicago Fund for Safe and Peaceful Communities mark its 10-year anniversary, recognizing a decade of partnership with community leaders, residents, and grassroots organizations across Chicago's South and West Sides. Over the past ten years, the Fund has supported locally led initiatives that strengthen community leadership, foster social cohesion, and advance community defined approaches to creating safe and peaceful spaces. This milestone honors the relationships, trust, and collective efforts that have shaped the Fund's work, while looking ahead to continued learning, reflection, and sustained investment in its 24 priority neighborhoods.

Recognizing the potential for a spike in violence in Chicago during the summer months, the Partnership for Safe and Peaceful Communities, a coalition of more than 50 funders committed to aligning their grant-making to support proven and promising approaches to reducing gun violence, will once again administer the Chicago Fund for Safe and Peaceful Communities, a \$1,000,000 fund to support activities by nonprofit organizations that build community cohesion, provide safe spaces, and promote peace. A rapid response process has been established to receive and review short proposals and quickly award grants ranging from \$1,000 to \$10,000.

To qualify, applicants must propose activities that adhere to the Seven Field Principles (7FP) model, an evidence-based framework that has been successful in fostering strong communities and reducing violence (outlined below). For more information, see

[https://www.researchgate.net/publication/314157745\\_7\\_Principles\\_To\\_Reducing\\_Violence\\_Re-Engaging\\_Youth\\_to\\_Society](https://www.researchgate.net/publication/314157745_7_Principles_To_Reducing_Violence_Re-Engaging_Youth_to_Society). Collaboration among community organizations is also strongly encouraged, as the 7FP model is more effective when implemented in a comprehensive and coordinated way.

The following community areas have been prioritized for support based on the number and rate of shootings and homicides: Austin, Auburn Gresham, Burnside, Chatham, Chicago Lawn, Englewood, Fuller Park, Gage Park, East Garfield Park, Greater Grand Crossing, Humboldt Park, Lower West Side (Pilsen), New City (Back of the Yards), North Lawndale, Riverdale, Roseland, South Chicago, South Lawndale (Little Village), South Shore, Washington Park, West Englewood, West Garfield Park, West Pullman, and Woodlawn.

The application for funding is available at  
<https://agency.e-cimpact.com/login.aspx?org=15085> .

The application deadline is March 2, 2026. Grant awards will be announced on May 1, 2026. Checks will be distributed on May 14, 2026. All activities must be completed by October 31, 2026.

## Statement of Purpose

Recognizing the potential for a spike in violence in Chicago during the summer months, the Partnership for Safe and Peaceful Communities, a coalition of more than 50 funders committed to aligning their grant-making to support proven and promising approaches to reducing gun violence, will once again administer the Chicago Fund for Safe and Peaceful Communities (Chicago Fund).

The \$1,000,000 Chicago Fund offers rapid-response grant opportunities designed to support activities by nonprofit organizations that build community cohesion, provide safe spaces, and promote peace. It has been created in direct response to the many people and grassroots organizations that are taking on-the-ground action in their neighborhoods.

While the participating philanthropic organizations are already engaged in larger, long-term efforts to help address the problem of gun violence in Chicago, the Chicago Fund is purposely intended to provide hyper-local, immediate support to smaller, neighborhood-based groups during the summer and early fall. It is not meant to be a quick fix to the broad and complex problem of gun violence, nor is it a substitute for the intensive and wide-ranging efforts already underway or planned to respond to the many root causes of the challenge.

## Who is eligible?

The Chicago Fund will award grants ranging from \$1,000 to \$10,000 to nonprofit organizations with annual operating budgets no larger than \$500,000 engaging in activities that build community cohesion, provide safe spaces, and promote peace. Applicants are strongly encouraged, but not required, to propose activities that adhere to one or more of the Seven Field Principles (7FP) model, an evidence-based framework with the following components, which has been successful in fostering strong communities and reducing violence:

1. **Create a sense of community** through programs and activities based on community members' ideas for reducing violence. These programs should build relationships and networks among residents, families, schools, nonprofits, churches, businesses, etc.
2. **Share knowledge across generations** by providing models, tools, and techniques for learning. These programs, such as mentoring and leadership development, will give community members access to new skills and information.
3. **Create a sense of connectedness** by engaging large numbers of community members in group activities. These activities will allow for youth, adults, community organizations, faith-based organizations, schools, businesses, etc., to come together and collectively take part in positive, proactive community events such as back-to-school rallies, peace walks, neighborhood festivals, arts and sports activities, and prosocial youth programs.
4. **Provide opportunities to learn social and emotional skills** through activities such as leadership development workshops, peace circles, and volunteering that promote self-control, empathy, and positive communication.
5. **Improve the self-esteem and self-efficacy (sense of power) of youth** in the community by providing opportunities for leadership, employment, and skill-building.

6. **Build relationships between youth and adults through** activities that create safe spaces for youth.
7. **Minimize trauma by connecting community members with caregivers and support services** such as well-being workshops and events with community service providers.

Collaboration among community organizations is strongly recommended, as the 7FP model is more effective when implemented in a comprehensive and coordinated way. Organizations working in the prioritized areas are invited to apply.

The Chicago Fund will consider applications from groups, agencies, and organizations with a valid 501(c)(3) designation or a 501(c)(3) fiscal sponsor whose mission aligns with the fund's goal of supporting grassroots, community-based solutions for safer Chicago neighborhoods. Grants may not be used to support or advocate for the purchase or use of firearms as part of any response.

Eligible recipients must conduct programming and activities in prioritized communities. Criteria for funding will include the proposed activities and the degree to which they follow the 7FP framework, the record of accomplishment of the applicant, the extent of collaboration with others, and the willingness to share information and plans.

### Fiscal Sponsorship

The Chicago Fund for Safe and Peaceful Communities funds nonprofit organizations with evidence of tax-exempt status under Section 501(c)(3) of the Internal Revenue Code. It also accepts applications from organizations that have a nonprofit fiscal sponsor. It does not provide funding to projects or organizations outside the United States or to individuals.

A fiscal sponsor is a nonprofit organization that provides fiduciary oversight, fiscal management, and other administrative services to help build the capacity of organizations that do not have their own 501c3 charitable status. These organizations may work with a fiscal sponsor to receive grants from United Way of Metro Chicago (UWMC).

Applicants may select their own fiscal sponsor or consider one of the following organizations, which has agreed to serve as fiscal sponsors:
